1. I just can't squeeze a trip to Europe for exercise POST OAK into my schedule.

2. I'd like to wait until about ten days before the exercise and then send a rather brief message to Dutch Huyser. I'd simply like to say: I'm delighted we're going to use national intelligence assets for tactical purposes in this exercise; I've asked Lieutenant [redacted] and your two people to represent me at this exercise and to bring back to me a report of what we can be doing better in the future; I'll appreciate any suggestions he may have before or after the exercise as to what we can better do to utilize these national assets in behalf of the tactical commanders.

3. All portions of this memorandum are classified Confidential.
